

The Ottawa Hospital | L'Hôpital d'Ottawa

Inspired by research. Driven by compassion. | Inspiré par la recherche. Guidé par la compassion.

The Ottawa Rules

App now features **THREE NEW** clinical decision rules!

Clinical Decision Rules for

SubArachnoid **H**emorrhage

Transient **I**schemic **A**ttack

&

CT Head

are now available and interactive within the app!

THE
Ottawa
RULES

Developed by Dr. Ian Stiell
& Dr. Jeffrey Perry

The rules featured in the app were developed by teams led by Dr. Ian Stiell and Dr. Jeffrey Perry

The Rules have been demonstrated to decrease unnecessary diagnostic imaging and emergency room wait times which enhances patient comfort and reduces health care costs.

The Ottawa Rules App is available on iOS and Android and can be downloaded for FREE from the App Store and Google Play

THE SOCIETY OF RURAL PHYSICIANS OF CANADA

28TH ANNUAL CONFERENCE

RURAL & REMOTE MEDICINE COURSE

2020 OTTAWA
APRIL 23-25 SHAW CENTRE

SRPC.CA | @SRPCANADA

"I am a pediatric emergency physician at the Stollery Children's Hospital (Edmonton) and an Associate Professor of Pediatrics at the University of Alberta. I have a research program that is studying the best ways to treat children's pain in the emergency department. After securing protected time and a small amount of start-up funds for a teeny tiny research program, I joined forces with Dr. Amanda Newton, and we secured a second CAEP grant of \$5000. This allowed me to delve into the world of both physical and psychological pain in the ED. Now, flash forward 6 years, and my research team has grown. We have secured both provincial and national funding for the study of acute pain in children. I have national and international collaborations for trials, systematic review, knowledge translation, and quality improvement projects in this area.

CAEP provided me with my first peer-reviewed grants, and this gave me 'legitimacy' when applying for other external funding. On a national level, CAEP has supported pediatric emergency researchers, and shown the emergency medicine community that our littlest of patients matter."

Dr. Samina Ali, MDCM, FRCPC(PEM)

WHY SUPPORT CAEP'S EM ADVANCEMENT FUND?

In the past 5 years, CAEP EMAF donors have financed an additional **15 grants** via the annual grant competitions. These grants have been essential in developing new front line, evidence-based improvements in patient care, and they support young researchers who often fund initial pilot projects that go on to receive major funding from other sources.

To read more about how your donation directly supports EM research, visit: theemaf.org/success-stories/

HOW YOU CAN HELP

Donations can be made at any time on theemaf.org website (click on the "donate now" link), and you can also add a donation to your CAEP membership renewal.

The EMAF is a registered charity and donations are fully tax creditable.

Better Together: Connect. Inspire. Thrive.
