

## Index to Volume 9, 2007

<b>A</b>		<b>D</b>		<b>Implementation</b>	275	<b>Q-R</b>	
Abdominal pain	114, 347	Database	267	Infestation	380	Quality improvement	118
Access and evaluation	286	<i>Datura stramonium</i>	467	Information technology	260	Radical head subluxation	333
Access to care	428	Delphi technique	339	Injury	9, 16	Radio-capitellar line	383
Acetaminophen	267	Diagnosis	87	Intensive care	38	Radius	383
Acute pain	30	Disaster	171	Intensive care admissions	34	Rapid sequence	
Adherence	435	Dislocated elbow	333	Jimson weed	467	intubation	101
Advance directives	250	Do-not-resuscitate orders	250	<b>K-L</b>		Regression analysis	111
Adverse effects	459	<b>E</b>		Ketorolac	30	Renal colic	463
Adverse outcomes	157	ED length of stay	105	Kidney stone	463	Research ethics	118
Advocacy	282	Elderly	87	Knee, penetrating injury	46	Residency	449
AFA	21	Emergency	347	Leaking aortic		Rheumatoid arthritis	40
Airbag injuries	470	Emergency department	79,	aneurysm	124	Right testicular pain	124
Alternative funding		171, 297, 304,		Learning	93	Rural	449
agreements	21	333, 378, 421, 428		Linear regression	111	Rural medicine	374
Ambulances	171	Emergency medical		Logistic regression	111	<b>S</b>	
Aminophylline	26	services	171, 250	Low-risk chest pain	435	Sedation	93
Analgesia	30, 114, 421	Emergency medicine	38, 64,	<b>M</b>		Self-injurious behaviour	267
Angkor Hospital		93, 171, 275,		Manpower	38	Sepsis	34
for Children	374	2	86, 374, 441, 449	Medical emergency teams	34	Sharp objects	16
Antibiotics	441	Emergency medicine		Medical therapy	463	Siem reap	374
Anticholinergic poisoning	467	ethics	118	Metaphyseal injuries	383	Significance	368
Asthma	304, 353	Emergency physician	121	Monomethylhydrazine	127	South Korea	171
<b>B</b>		Emergency physician		Monteggia	383	Stroke	368
Bado classification	383	demographics	449	Monteggia combination		Survival	105
Barriers	275	Emergency physician		injury	383	Syncope	157
Blunt trauma	105	training	449	MRSA	300	<b>T</b>	
Botfly	380	Endotracheal intubation	101	Mushroom poisoning	127	Technology	
Bronchodilators	304	Epidemiology	267	Myiasis	380	implementation	260
Burnout	121	Epiphysis	383	<b>N-O</b>		Tendinopathy	459
<b>C</b>		Etanercept	40	Neck injury	101	Trauma	16
Cambodia	374	Ethics	114, 250	Necrotizing pneumonia	300	Trauma centre	101
Canada	300	Exercise stress test	435	Non-OHIP dollars,		Trauma team leader	105
Cardiac arrest	26, 250	Expulsive therapy	463	fast-track	21	Treatment outcome	383
Cardiac tamponade	43	<b>F</b>		Nursemaid's elbow	333	Triage	260, 428
Cardiopulmonary		Facilitators	275	Nurse practitioner	275,	<b>U</b>	
resuscitation	26	False morel	127	286, 297		Ulna	383
Career satisfaction	121	Family physician	79	Overcrowding	339, 378, 428	Ultrasonography	131
Carotid artery bruit	368	Firearms	16	<b>P</b>		Ultrasound	131, 371
Catheter, subclavian	43	Fluoroquinolones	459	Paracetamol	267	Ultrasound guided	371
Central venous		Follow-up	79, 435	Paramedics	250	Ultrasound guidance	43
catheterization	43, 131	Forearm injury	383	Pediatrics	9, 93, 374, 459	Urinary tract infection	87
Chest x-ray	347	Fracture	9	Penetrating wounds	101	Utility	368
Child	383	Furuncular myiasis	380	Phantom	371	<b>V-Y</b>	
Children	333, 347	<b>G-H</b>		Pneumonia	347	Vascular access	371
<i>Clostridium septicum</i>	133	Gas gangrene	133	Pneumonitis	470	Victim	164
Community	449	Guidelines	93, 353	Prediction rule	157	Violence	164
Community-acquired		Guidewire	131	Prehospital care	171, 250	Wait time	333
MRSA	300	Gyromitra esculenta	127	Prevention	164, 353	Wound infection	441
Compliance	435	Gyromitrin	127	Primary care provider	428	Youth	164
Computerized decision		Health care quality	286	Procedural sedation	421		
support	260	Health services		Professional role	282		
Continuing education	93	accessibility	339	Prophylaxis	441		
Continuity of care	79	Holistic medicine	374	Propofol	421		
Corticosteroids	353	Human bites	441	Pulled elbow	333		
Critical care response		<b>I-J</b>		Purulent pericarditis	40		
teams	34	Ibuprofen	30				
Crowding	339
