# ROADSHOWS

Musculoskeletal Injuries in Adults & Children

In collaboration with Canadian Academy of Sport Medicine

Musculoskeletal injuries are a common and important component in the practice of emergency medicine. The MSK Roadshow will enable physicians to acquire a practical evidence-based approach to the assessment, diagnosis and treatment of musculoskeletal injuries in adults and children. Hands-on sessions using knee and shoulder injection models to practice appropriate needle placement are included.

## Learning Objectives

At the end of the MSK Roadshow the participant will be able to:

- Use organized framework when examining knee joint
- Recognize frequently missed injuries/fractures on radiograph
- Investigate appropriate options for patient with back pain
- Identify advantages for splinting fractures
- Administer 'Shoulder tests' in patient with shoulder pain
- Tap 'hot joint' appropriately
- Appropriately reduce subluxation in pediatric patients
- Identify high-risk presentation from medico-legal perspective

## Locations & Dates

CME in the SUN 2008 (Punta Cana)	Jan. 26–Feb 2, 2008 (Launch)
Winnipeg MB	Apr. 9, 2008
Vancouver BC	May 26, 2008
Ottawa ON	June 6, 2008
Whistler BC	Sept. 25, 2008
Montreal QC	Dec. 3, 2008

## Study Credits

7 MAINPRO C (CFPC) & Section 1 (RCPSC)

## Speakers

Monica Cermignani, MD, FRCPC, CCFP, CSPQ  
R. Bruce Davidson, MD, CCFP(EM)  
J. Scott Delaney, MD, CCFP, FRCPC  
Tatiana Jevremovic, MD, CCFP(EM)  
William Sevcik, MD, FRCPC  
Shaun Visser, MD, CCFP(EM)
