

CJEM JCMU

Vol. 12, No. 2
March / mars 2010

cjem-online.ca

About the Cover:

Several articles in this issue examine the sensitivity and importance of prehospital triage. The challenge of tracheal intubation by paramedics is reported by Jensen and colleagues, and a paper by Verma and coauthors examines reducing the proportion of false positives when using prehospital stroke screening protocols. See pages 103 and 135.

IS THERE AN ANTIARRHYTHMIC DRUG INDICATED TO REDUCE THE RISK OF CV HOSPITALIZATION DUE TO AF IN AF PATIENTS ?
