

## 2007 CAEP/ACMU Scientific Abstracts

### Key Word Index

KEY WORD	ABSTRACT No.				
<b>A</b>					
abdominal pain	18	central venous catheterization	197	ED management	132
access block	206	cervical spine injury	9	ED utilization	140
acetaminophen	181	cervical-spine	26, 27	EDTU	194
acetaminophen overdose	30	chest x-ray	210	education	2, 12, 13, 16, 17, 137, 176, 177
acute stroke	188	clarithromycin	48	electronic prescription	29
administration	15, 135	clinical decision rule	149	EM curriculum	108, 109, 100, 133, 134
admitted patients	156	clinical decision support	124, 125	emergency	37
advanced life support	20	clinical practice guidelines	132	emergency department (ED) utilization	157, 158
adverse drug effects	11, 31	clinical severity scores	21	emergency department targeted ultrasonography	147
adverse events	33, 34, 153	community	32	emergency medical services	15, 161
AECOPD	48	compliance	141, 150	emergency medicine	19
aerochamber	130	complications	197	emergency medicine training	16, 17
alcohol	170	computed tomography angiography	207	EMS	47, 26
ALS	47	computer modeling	123	epidemiology	145, 146
alternate payment	205	computerized	202	escalator related injuries	107
aminotransferase	30	computerized decision support	23	ethics	141
analgesia	7, 18, 153	consent	141		
ankle x-ray	211	consultations	148		
antibiotic treatment	103	COPD	5, 131, 132		
anticipatory guidance	184	corneal abrasion	7	<b>F - G</b>	
anticonvulsants	20	coronary artery disease	126, 128, 129	fee-for-service	205
appendicitis	18, 185	cough	210	Fentanyl	46, 153
assessment	136	CPR	2, 4, 128	fever	186
asthma	21, 130	critical care	182, 199	fracture risk	172
atrial fibrillation	3	C-Spine	208	gastroenteritis	22
atrial flutter	3	CT scan	24, 167, 196	geographic patterns	140
attitudes	142	CTAS	161, 186, 191	guidelines	124, 125
		curriculum	12, 13		
<b>B</b>					
bag-valve	44				
base therapy	182	<b>D</b>		<b>H</b>	
benchmark	144	D-dimer	25, 207	handhelds	137
best practice	187, 188	decision rule	9, 24, 168, 208, 210, 211	head injury	9, 24
beta blockers	1	defibrillation	128	helmets	216
B-HCG	214	dehydration	22	hepatotoxicity	30
bicycle injuries	216	diagnosis	24	homelessness	13, 14
billing	205	diagnostic test	19, 25	hospital admission	143
blood alcohol levels	215	diagnostics	154	hospital beds	42
blood culture	100	diazepam	20	hospital care	11
BLS	47	difficult airway	175	hospitalization rates	154
		discharge advice	150, 152	hypothermia	127
		discharge diagnosis	203	hypoxic brain injury	127
		discharge prescriptions	166		
		dispatch	163	<b>I - J</b>	
		disposition	22	ICD-10	203
		dissemination	167	ICU	216
<b>C</b>		documentation	152, 197	imaging	196
Canadian C-Spine rule	27, 26, 28	doxycycline	48	impaired driving	170
Canadian urban hospitals	35	drug related	11, 34	implementation	167, 208
capacity deficit	206	DVT	25	incident reports	192
capnography	6			induced renal failure	105
cardiac arrest	2, 127, 128, 177	<b>E</b>		infants	186
cardioversion	3	ectopic	194	infection control	101
CCHR	167	ED administration	123	infectious disease	100, 101, 102, 103
CCR	172	ED efficiency	120	inhalational therapy	130
central line	197	ED follow-up	126	injury	172, 183
central line placement	133				

injury prevention	8, 107	pain scales	185		
interchangability	185	paramedics	44, 162, 163	<b>S</b>	
internship	138	patient compliance	126	safety culture	193
inter-rater reliability	159	patient flow	36	SARS	102
intimate partner violence	106	patient safety	192, 193	secondary prevention	187
intrauterine pregnancy	147	PCTI	43	sedation	151, 153
		pediatric respiratory distress	47	seizures	20
		pediatric trauma	107	selection criteria	14
<b>K - L</b>		pediatrics	120, 136, 154, 184, 185, 200, 201, 213,	self-assessment	175
Ketamine	46	performance	14	sexual assault	195
knowledge transfer	24	performance indicators	200	SFSR	168
knowledge translation	149	pharmacy	11	short-term risk	189
liaison physician	39, 155	physical activity	183	shoulder dislocation	171
logging	137	physician practice	199	shoulder reduction	171
long-term care	156	physician workload	37, 38	simulation	176
low acuity	191	pneumonia	100	skills	136
		population health	10	socio-economic status (SES)	157
<b>M</b>		predictors	181	sodium bicarbonate	182
management	188	pregnancy	194, 214	specialized nurses	195
mechanism	172	prehospital	15, 164	spousal abuse	106
medical education	106, 108, 109, 110, 133, 134, 175	prehospital bypass protocol	43	STEMI	43
medical error	104, 192	preparedness	177	streaming media	138
medical informatics	120, 122, 123, 124, 125	prescription	31, 150	strep pharyngitis	19
methodology	165	prescription medication	122	stroke	162, 187, 189, 209
midazolam	151	prescription-filling	166	suicide	10
minor head injury	28	prevention	184	superiority	165
morphine	18	prevention	187, 189	survey	142, 148
motor vehicle collision	170, 215	procainamide	3	syncope	168
MPD	161	procedural sedation	6, 33, 46	systematic review	105, 168
MRSA	101, 103	procedural skills	176		
myocardial infarction	1, 129	procedures	17	<b>T</b>	
		professional development	135	third world	145, 146
		program impact	195	thrombolysis	129
<b>N</b>		proparacaine	7	throughput	198
N-acetylcystine, contrast	105	Propofol	6, 46, 151, 153, 162	TIA	189
naloxone	32	psychiatric impact		time to assessment	144
narcotic	29	of disease	102	time to treatment	129
narcotic overdose	32	public health	2, 4	toxicity	181
near misses	104	pulmonary embolism	207	toxicology	181
nebulizer	130	qualitative	164, 193	traffic accidents	213
New Orleans criteria	28	quality assurance	200	trainees	13
non-inferiority	165			training	135, 136
non-urgent	191	<b>R</b>		transfer times	212
nurse practitioners	198	RCT	165	transient ischemic attack	209
nurses	27, 158, 149	recovery times	151	trauma	213, 214
		refugees	146	trauma services	212
<b>O</b>		relapse	48, 131	treatment times	198
obesity	184	reliability	202	triage	23, 37, 38, 39, 40, 41, 154, 155, 159, 161, 202
offload times	163	renal colic	196	triage level	143, 144, 186
organized sports	183	research priorities	164		
outcomes	33, 209	residency	14	<b>U - Z</b>	
outpatient management	131	residency training	108, 109, 133, 134	ultrasonography	12, 194
overcapacity	40	residents	177	undergraduate training	110
overcrowding	5, 35, 36, 39, 40, 41, 42, 155, 156, 157, 158, 204, 206	resource utilization	154	urolithiasis	196
oximetry	6	resuscitation	176, 177, 199	validation	166
		return visit	201	ventilation	44
<b>P - Q</b>		revascularization	129	violence	8
paediatrics	18, 19, 20, 21, 22, 23	rural	140, 143, 144, 145, 204	wait times	171, 195
		rural ED	191	web-based education	138
				youth	8
